

Your July 8 briefing

Breath of Innovation · Tuesday, July 8, 2026 · Norco, California

You asked for a working look at how we operate — not a pitch. This briefing is your map for July 8: where we will spend time, what we will dig into, and what you should be ready to evaluate before you leave Norco.

Arrive 9:00 AM. Tour at 2058 Second Street first; working session at 9:30 across the street. Casual business attire · closed-toe shoes · phone charged for tasting at 10:30.

YOUR DAY

Times are suggested — your team's priorities set the pace.

Time	Session	What to expect
9:00 AM	Arrive	2058 Second Street — we start on the floor
9:00–9:25	Facility tour	Production, QC, your dedicated room — one site from sample to ship
9:30–10:15	Working session	Four pillars you named — resiliency, innovation, operations, partnership
10:15–10:30	Break	—
10:30–11:15	Tasting	Five coded prototypes — blind first, then score — directional only
11:30–1:00	Lunch off site	Your hosts · back by 1:00 PM
1:00 PM+	Your agenda	Lakewood · procurement · growth — you set the pace

FOUR PILLARS · 9:30–10:15

- **Resiliency** — Scale, continuity, and certification as your volumes grow
- **Innovation** — Chlorite-stable flavor work and what's next for oral care
- **Operations** — Full traceability under one roof — development through batch release
- **Partnership** — How we work with you on Lakewood and long-term growth

WHAT WE WILL DIG INTO

Themes from your conversations with us — Lakewood, competitive calibration, and partnership. Bring what else matters to your team.

Lakewood site parity

- Validation path for Lakewood mouthrinse production
- Detecting taste differences across sites — triangle, then blind characterization
- Consumer validation for Tier-A SKUs: Icy Mint, Dazzling Mint, Sparkle Mint
- Eight-variant trial timeline through September

Competitive & innovation

- Extra Mild tier read across key Listerine SKUs
- GA-22131 functional direction — efficacy and chlorite stability
- Chlorite flavor architecture — mint layering, vanilla, stability

Partnership & scale

- Capacity if TheraBreath volume doubles or triples — direct answer
- Sensory science beyond Lakewood — triangle, blind, CLT/HUT
- How we support site transfers and long-term alignment

TEN QUESTIONS FOR YOUR TEAM

We will raise these in the room. Sharp answers help us align — no prep deck required on your side.

1. What does success look like for TheraBreath in 3–5 years?
2. What are your biggest growth challenges right now?
3. What separates your best suppliers from everyone else?
4. How should suppliers support your resiliency goals?
5. Which innovation opportunities matter most to you?
6. What oral care trends are still underappreciated?

TEN QUESTIONS (CONTINUED)

7. Which sensory attributes matter most to consumers today?
8. What would make The Flavor Factory a stronger partner?
9. How do you want sensory validation data presented?
10. After July 8, what would make you confident we can support your growth?

WHAT YOU SHOULD LEAVE WITH

- A firsthand read on our facility, team, and how we operate — not a brochure
- Direct answers on the four capability areas your team asked to evaluate
- Sensory feedback on five workshop prototypes you can take back internally
- Alignment on Lakewood parity — panels, timeline, sign-off
- A partner assessment you can defend — strengths and gaps stated plainly
- Written follow-up within 24 hours with owners and next steps

HOW TO PREPARE

- 9:00 AM · 2058 Second Street, Norco, CA 92860 · closed-toe shoes
- Read the ten questions — bring your real answers, not talking points
- This briefing is enough — no other pre-reading required

WHAT WE NEED FROM YOU

- Your 3–5 year success definition and where a flavor partner wins
 - What your best suppliers do differently
 - How you want validation data delivered
 - Lakewood decisions agreed before you leave Norco
-
