

Together We Have the Power to Win

A capabilities partnership for TheraBreath's next chapter of growth.

PARTNERSHIP	SCALE	QUALITY	TASTE CONSISTENCY
-------------	-------	---------	-------------------

Breath of Innovation · July 8, 2026 · Norco, California
The Flavor Factory — development, production, and quality under one roof.

WHY WE'RE MEETING

Built for your R&D and procurement team

TheraBreath is scaling across rinses, toothpastes, and new production sites. This visit is a working capabilities review — not a sales pitch. You will see how we develop, manufacture, and support the flavors behind that growth, with the same Norco team from first sample to repeat order.

- Real facility walkthrough and documented quality systems
- Honest answers on resiliency, innovation, operations, and partnership
- Directional sensory feedback on ten workshop prototypes
- A clear path for Lakewood site parity validation

FOUR PILLARS

What your team asked to see

Resiliency

Capacity, redundancy, and supply continuity as volumes grow.

Innovation

Oral-care flavor work inside sodium chlorite chemistry.

Operations

Single-site traceability from sample through production.

Partnership

Aligned communication, investment, and shared growth.

JULY 8 AGENDA

Your day in Norco

Arrive by **8:50 AM** · first session **9:00 AM** in the conference room across from The Flavor Factory · **2058 Second Street, Norco, CA 92860**

1:00 PM onward	Open Q&A;	Your topics · wrap when ready

Full schedule for email: therabreath-visit-site.vercel.app/agenda

LAKEWOOD SITE PARITY

Protecting taste as production expands

As TheraBreath scales to Lakewood, we use a four-step escalation ladder — expert screen, triangle test, descriptive profiling, and consumer validation only where data requires it.

Step	What we run	When it applies
1	Expert sensory screen	Same / different vs reference, per variant
2	Triangle test (ISO 4120)	Statistical difference check

3	Blind paired profiling	Only if triangle flags a difference
4	Consumer validation	Priority SKUs where difference is confirmed

WHAT COMES NEXT

Same trusted partner. Future-ready support.

After July 8, you receive a follow-up summary within 24 hours — sensory rollup, pilot priorities, Lakewood alignment, and named owners for next steps.
