

THE FLAVOR FACTORY x Thera Breath

# Together We Have the Power to Win

## Rebuilt for TheraBreath's Next Era of Growth

A polished archive-to-future booklet for the July 2026 capabilities workshop  
The Flavor Factory | Norco, California

PARTNERSHIP

SCALE

QUALITY

TASTE CONSISTENCY

# The Story We Want Them to Feel

This version uses the old documents as premium proof points, not as raw scans.

The uploaded archive shows something valuable: this partnership has real history. But the presentation should not look old. It should feel modern, clean, and intentional - like The Flavor Factory is helping TheraBreath protect taste, quality, and scale for the next chapter.

## PAST

Documented formulation guidance, product specifications, certifications, supply terms, and continuity planning.

## PRESENT

Dedicated TheraBreath support, production discipline, quality systems, and rapid response.

## FUTURE

Site-to-site taste consistency, stronger sensory validation, proactive risk planning, and a clearer partnership operating model.

# Clean Heritage Wall

Use the original documents as framed artifacts: small, curated, and explained.

## FORMULA PHILOSOPHY

Clean, consumer-appropriate guardrails

## KOSHER CERTIFICATION

Compliance foundation

## HALAL CERTIFICATE

Global readiness

## CONTINUITY

Emergency manufacture proof

## SUPPLY FOOTPRINT

Multi-location reference

## SPECIFICATIONS

Product control discipline

# Together We Have the Power to Win

A respectful callback to Church & Dwight's historical language, modernized for the workshop.

## LEGACY SPECIFICATION

Historical C&D / TFF document

## LEGACY SPECIFICATION

Historical C&D / TFF document

## MODERN INTERPRETATION

The old language becomes the bridge: the partnership already has roots. The July visit should show that the system has matured - stronger operations, sharper sensory science, better risk planning, and a clearer growth model.

# Formulation Philosophy, Modernized

Turn the original Professional Formula guidance into a clean strategic message.

## ARCHIVE PROOF

Original TheraBreath formulation guidelines

## CLEAN SENSORY DIRECTION

Freshness without harshness. Flavor systems that support the brand promise without overpowering the formula.

## CONSUMER-FIT FORMULATION

Profiles should feel appropriate, accessible, and consistent across variants and formats.

## WHAT TFF BRINGS

Flavor design, technical troubleshooting, sensory language, prototype screening, and site-transfer taste support.

## Quality + Compliance Foundation

A premium presentation of the documents that reduce risk.

**KOSHER**

## Certification support

**HALAL**

Global-market confidence

## Why it matters

- Certifications support qualification, continuity, and customer confidence.
- Product specifications reinforce repeatability, storage discipline, shelf-life awareness, and release control.
- The visual takeaway: TFF protects more than flavor - TFF protects the standards behind flavor.

# Operational Continuity

Make the emergency manufacturing proof point look intentional and strategic.

ARCHIVE PROOF

Emergency agreement to manufacture

CONTINUITY MINDSET

The relationship has already included planning for supply continuity and manufacturing support.

MODERN UPGRADE

Formalize redundancy across equipment, raw materials, key personnel, documentation, and sensory validation.

WORKSHOP MOMENT

Show the Resiliency Board beside the facility flow so the risk-mitigation story feels visible and real.

# Supply Planning + Commercial Discipline

Use the old agreement and proposal as evidence of operating structure, then show the upgraded version.

## PRODUCTION GUIDELINES

Purchase orders, forecast, delivery, terms

## PROPOSAL SUPPORT

Pricing, terms, lead time

## THEN

Terms, pricing, lead times, order flow, and approved supply expectations.

## NOW

Forecast-to-capacity thinking, safety stock, raw material visibility, and demand spike response.

## WORKSHOP MESSAGE

The Flavor Factory is not winging growth. We are building a more visible operating model around TheraBreath's scale.

# Capabilities at a Glance

A clean, branded summary of the four requested workshop pillars.

## RESILIENCY & BUSINESS CONTINUITY

Capacity planning, redundancy, risk mitigation, quality systems, and contingency planning.

## INNOVATION & TECHNICAL CAPABILITIES

Flavor creation, proactive ideation, sensory methods, and support for new formats and adjacencies.

## SUPPLY CHAIN & OPERATIONS

Manufacturing footprint, lead times, OTIF, sourcing strategy, and scalable support.

## PARTNERSHIP & GROWTH VISION

Communication, transparency, investment mindset, and shared 3-5 year growth planning.

## THE STANDARD

Every part of the visit should quietly prove these four pillars before anyone has to explain them.

# Lakewood Taste Consistency Validation

Directly answering the newest R&D request with a simple sensory science framework.

1

## Expert Sensory Screen

Blind expert evaluation of current-site vs Lakewood samples by variant.

2

## Difference Testing

Triangle test to determine whether a perceptible difference exists.

3

## Descriptive Profiling

If different, define how: mint impact, sweetness, cooling curve, bitterness, aftertaste, mouthfeel.

4

## Consumer Validation

For priority variants, determine whether differences affect liking or purchase intent.

### TFF SUPPORT ROLE

Framework design, coded tasting scorecards, attribute language, result interpretation, and root-cause flavor review.

# Lakewood Variant Validation Matrix

Start broad, then escalate only where the data says it matters.

| Variant                    | Expert | Triangle | If Difference Appears  |
|----------------------------|--------|----------|------------------------|
| Invigorating Icy Mint      | Yes    | Yes      | Descriptive + Consumer |
| Mild Mint                  | Yes    | Yes      | Descriptive + Consumer |
| Rainforest Mint            | Yes    | Yes      | Descriptive if needed  |
| Healthy Gums Clean Mint    | Yes    | Yes      | Descriptive if needed  |
| Anticavity Sparkle Mint    | Yes    | Yes      | Descriptive + Consumer |
| Overnight Chamomile Mint   | Yes    | Yes      | Descriptive if needed  |
| Complete Revitalizing Mint | Yes    | Yes      | Descriptive + Consumer |

## RECOMMENDED EXECUTION

Expert screen + triangle testing for all listed variants. Escalate only where meaningful differences are observed.

# The Facility Should Tell the Story

Use printed assets and stations that make the visit feel designed, not decorated.

1

## Arrival

Welcome banner, badges, agenda, bottled water, and workshop folders.

2

## Heritage Wall

Framed archive proof cards: formulation, certifications, continuity, supply, and specs.

3

## Taste Consistency Station

Lakewood framework, coded cups, scorecards, palate cleansers, and QR feedback.

4

## Production Walkthrough

Simple signs at receiving, production, QC, and shipping.

5

## Close

Commitment board and executive leave-behind folder.

# Print + Merch Priority List

Useful, premium, and strategic. No random trade-show clutter.

| Priority | Asset                               | Purpose                    |
|----------|-------------------------------------|----------------------------|
| 1        | Welcome TheraBreath Banner          | First impression           |
| 2        | Together We Win Heritage Wall       | Connects history to future |
| 3        | Capabilities at a Glance Banner     | Frames the four pillars    |
| 4        | Taste Consistency Validation Banner | Answers Lakewood request   |
| 5        | Workshop Booklet                    | Executive leave-behind     |
| 6        | Lakewood One-Pager                  | Technical proof            |
| 7        | Sample Labels + Scorecards          | Controlled tasting         |
| 8        | Notebook + Pen                      | Useful, polished merch     |

## RULE

If it does not prove partnership, scale, quality, or taste consistency, do not print it.

# Suggested Talk Track

Four short moments. No rambling. No vendor energy.

1

## Opening

We looked at this visit as a chance to show how TFF supports TheraBreath today, and how we can support the brand as it scales.

2

## Heritage bridge

The archive reminds us that this relationship has always been grounded in formulation discipline, quality, and supply support.

3

## Lakewood

The Lakewood implementation is exactly where our flavor and sensory perspective can help protect the consumer experience.

4

## Close

We are proud of the history, but focused on what comes next: scale, consistency, speed, and stronger collaboration.

# The Next 3-5 Years

How The Flavor Factory can support the future of TheraBreath growth.

## SCALE AHEAD OF DEMAND

Capacity planning, raw material readiness, and redundancy before pressure hits.

## ACCELERATE INNOVATION

Prototype faster, evaluate smarter, and support new formats with disciplined sensory work.

## PROTECT TASTE CONSISTENCY

Sensory validation across sites, formats, and production changes.

## IMPROVE WAYS OF WORKING

Clear communication rhythms, ownership, escalation paths, and shared visibility.

## POSITIONING

TFF should be seen as the flavor innovation and taste consistency partner that helps TheraBreath scale without losing the experience consumers trust.

THE FLAVOR FACTORY    Thera **Breath**

# Same trusted partner. Future-ready support.

**Together, we protect the future of fresh.**
