

Supplier Quality System Assessment - Standard

RPA ID:

Supplier Name:

Overview & Table of Contents

The purpose of this survey is to evaluate and understand the overall quality management system at the specific facility referenced under the General Information section below. Each section will request a general overview of a particular element/area of the quality system, including information on supporting procedural documentation. **IMPORTANT:** Answers should be based entirely on the program in place at this specific manufacturing site. We ask that the survey be completed and approved by an appropriate level of Quality management. Please note that information provided will be held in strict confidence by Church & Dwight Co., Inc. If you have questions or concerns, please refer to the C&D contact information below

Instructions:

1. Please submit a copy of any certificates issued by independent third parties with the submission of this survey (i.e., ISO 9001, ISO 13485). If the facility under review does not have a QMS certificate, submit copies of the governing procedures referenced in this survey.
2. Please answer all questions in the assessment using the drop down in the "Response" column.
3. For "Yes" Responses in the "Response" column, please do the following:
 - i. if the facility **has a QMS certificate** issued by an independent third party - reference the applicable governing procedures for the facility under review in the "Governing Procedures Reference / Comments" column.
 - ii. if the facility **does not have a QMS certificate** issued by an independent third party - reference the applicable governing procedures for the facility under review and provide a brief description of the process in the "Governing Procedures Reference / Comments" column.
4. For "No", "N/A", or "In Process" responses in the "Response" column, please provide additional information in the "Governing Procedures Reference / Comments" column.
5. All questions with indicated with an asterisk (*) an answer in "Response" column. Failure to respond to the indicated questions will result in survey processing delays.

Table of Contents:

Section 1: General Company Information

- Company/Organization Overview

Section 2: Quality Systems Overview

- | | |
|---|--|
| 2.1: Customer Related Process, Service & Contract Review | 2.10: General Audits Systems |
| 2.2: Purchasing Controls | 2.11: General Management Responsibility & Continuous Improvement |
| 2.3: General Controls - Incoming Materials | 2.12: Corrective Action & Preventive Action (CAPA) |
| 2.4: General Controls - In Process Manufacturing | 2.13: Identification & Traceability System |
| 2.5: General Controls - Finished Goods Status, Storage, and Distribution | 2.14: Regulatory Overview |
| 2.6: General Controls - Manufacturing Facilities, Safety, and Environment | 2.15: Process Control & Validation |
| 2.7: General Controls - Calibration and Laboratories | 2.16: Hazard Analysis Critical Control Point (HACCP) |
| 2.8: Document Control / Change Control Communication | 2.17: Design & Development Controls |
| 2.9: General Employee Training | 2.18: Sustainability Program |

Section 3: Signature**Section 4: Company Contact Information**

Church & Dwight Contact Information: Please refer to the following for any questions concerning this survey:

E-Mail

SupplierSurveysManager@churchdwight.com

Global Quality Address:

Church & Dwight Co., Inc.
Corporate Quality Department - Princeton North
469 North Harrison Street
Princeton, NJ 08543-5297

General Company Information

Section 1

Questionnaire date completed:

Manufacturing facility street address:

City:

State:

Country:

Zip Code:

Main Telephone:

Company Web Site:

Provide your customer profile breakdown:

	% Revenue	% Volume
Fortune 500 multi-national companies:		
Private label brands:		
Own brands:		
Other:		
Total:	0	0

Age of facility (years):

Approximate size of facility (sq/ft):

Standard operating schedule: Days per week:

Shifts:

Percentage of permanent vs. temporary manufacturing operators at this site:

% Perm.	% Temp.
100	

Number of employees at this site:

Management:	5
Operators:	7
Total:	12

Is your Quality Department a separate unit of the organization?

If yes, how many people make up the Quality staff?

Do they provide full coverage across all the shifts?

Who does the plant Quality Management report to?

QUALITY SYSTEMS OVERVIEW

Section 2

2.1: Customer Related Process, Service & Contract Review

2.1: Customer Related Process, Service & Contract Review		
Subject:	Response:	Governing Procedure Reference / Comments:
1 * Do you have documented processes which determine, review, and communicate the requirements related to customers? (Reference governing procedure(s))	Yes	SQF
2 * Is there a defined process in place to ensure specifications, acceptance criteria, revision level, amendments, and other critical requirements are clearly identified and communicated throughout the organization? (Reference governing procedure(s))	Yes	SQF
3 * Is there a defined process in place to ensure the customer contract, in its entirety, is reviewed and agreed upon <u>prior</u> to manufacturing saleable product? (Reference governing procedure(s))	Yes	SQF
4 * Is there a program in place for recording, tracking, and resolving customer complaints? (Reference governing procedure(s))	Yes	SQF
5 * Is a program in place for measuring and monitoring performance in meeting customer requirements (KPIs)? (Reference governing procedure(s))	Yes	SQF
6 * Are controls in place to ensure no order is processed without a supplier approved C&D specification(s) in place? (Reference governing procedure(s))	Yes	SQF
7 * Is a process in place to ensure quality planning for requirements, resources, procedures and environmental conditions necessary for quality product realization? (Reference governing procedure(s))	Yes	SQF
8 * Are process risk assessments used as part of the product realization process? (Reference governing procedure(s))	Yes	SQF

2.2: Purchasing Controls

2.2: Purchasing Controls		
Subject:	Response:	Governing Procedure Reference / Comments:
1 * Is there an established/controlled list of approved suppliers for materials and outsourced processes used in the manufacturing process? (Reference governing procedure(s))	Yes	SQF
2 * Is there a defined process to ensure Purchasing documents (PO, specifications, contracts, etc.) clearly communicate your requirements? (Reference governing procedure(s))	Yes	SQF
3 * Is there a defined process for the selection, qualification, approval of suppliers, status identification, and certification process especially those identified as critical? (Reference governing procedure(s))	Yes	SQF
4 * Do you have a system for the continuous monitoring of overall supplier performance, especially as it relates to quality and service? (Reference governing procedure(s))	Yes	SQF
5 * Is there a system for verifying purchased product meets specified requirements (testing, inspection, etc.)? (Reference governing procedure(s))	Yes	SQF
6 * Are controls in place to ensure non-approved suppliers are not utilized? (Reference governing procedure(s))	Yes	SQF

7 *	Is there a defined process that ensures all potential supplier changes are communicated to and approved by the customer as part of the qualification process before implementation? (Reference governing procedure(s))	Yes	SQF
8 *	Do you have a process for lifecycle management of all suppliers? (Reference governing procedure(s))	Yes	SQF

2.3: General Controls - Incoming Materials

Subject:		Response:	Governing Procedure Reference / Comments:
1 *	Is there a defined process that requires the Receiving/Quality function to check incoming shipments against the requirements of the PO, specs, and other applicable documents prior to release from quarantine and identifies the status? (Reference governing procedure(s))	Yes	SQF
2 *	Is there a hazard analysis and/or risk assessment performed on all ingredients, materials, components, and processes? (Reference governing procedure(s))	Yes	SQF
3 *	Is there a defined process in place to ensure rejected/non-approved material is identified and segregated from production materials? (Reference governing procedure(s))	Yes	SQF
4 *	Do receiving records provide traceability for all receiving activity and are they readily accessible? (Reference governing procedure(s))	Yes	SQF
5 *	Are controls in place to ensure material from unqualified/unapproved suppliers cannot be accepted? (Reference governing procedure(s))	Yes	SQF
6 *	Is there designated work area(s) for sampling/inspection activities? (Reference governing procedure(s))	Yes	SQF
7 *	Is there a defined process to ensure materials are properly handled and stored to prevent damage? (Reference governing procedure(s))	Yes	SQF
8 *	Are all materials properly identified as to their contents to avoid errors in issuance? (Reference governing procedure(s))	Yes	SQF
9 *	Are raw materials with expiration dates controlled/distributed using a FIFO/FIFE based system? (FIFO=First In First Out, FIFE=First in First Expired) (Reference governing procedure(s))	Yes	SQF
10 *	Are your warehousing/storage areas climate controlled (i.e.: humidity, temperature, etc.)? If so, define controlled areas in Comments column. (Reference governing procedure(s))	Yes	SQF
11 *	Are the environmental conditions in warehouse/storage areas measured/monitored? (i.e.: humidity, temperature, etc.)? If so, define monitored areas in Comments column. (Reference governing procedure(s))	Yes	SQF

2.4: General Controls - In Process Manufacturing

Subject:		Response:	Governing Procedure Reference / Comments:
1 *	Are non-production materials properly controlled in designated storage areas (lubricants, cleaning materials, tools, etc.) to prevent product contamination? (Reference governing procedure(s))	Yes	SQF
2 *	Is there a defined process for line clearance at production start/stop and other phases? (Reference governing procedure(s))	Yes	SQF

3 *	Do you use a 5S or other systemic program to maintain an orderly work environment in production areas? (Reference governing procedure(s))	Yes	SQF
4 *	Is the quality department directly involved with the approval of production start-up? (Reference governing procedure(s))	Yes	SQF
5 *	Are manufacturing procedures (SOP's, job work instructions, etc.) in place and controlled? (Reference governing procedure(s))	Yes	SQF
6 *	Is each step in the manufacturing process recorded at the time of that step's completion? (Reference governing procedure(s))	Yes	SQF
7 *	Do you have a defined process for handling all rework and/or non-standard activities? (Reference governing procedure(s))	Yes	SQF
8 *	Are active product specifications and test procedures readily available and being resourced by operators? (Reference governing procedure(s))	Yes	SQF
9 *	Are controls in place to ensure SCRAP/REJECT material is segregated from the manufacturing environment is clearly labeled/identified as SCRAP/REJECT? (Reference governing procedure(s))	Yes	SQF
10 *	Is there a program in place that monitors and measures SCRAP/REJECT occurrence on an ongoing basis? (Reference governing procedure(s))	Yes	SQF
11 *	Are there controls in place to prevent environmental contamination in production areas? (Reference governing procedure(s))	Yes	SQF
12 *	Are there controls in place to prevent personnel contamination in permitted designated locations? (Reference governing procedure(s))	Yes	SQF
13 *	Are in-process inspection and test procedures/results clearly documented? (Reference governing procedure(s))	Yes	SQF

2.5: General Controls - Finished Goods Status, Storage, and Distribution

	Subject:	Response:	Governing Procedure Reference / Comments:
1 *	Is there a defined process for final-product inspection, sampling, and testing of finished product while it is in the production environment? (Reference governing procedure(s))	Yes	SQF
2 *	Is there a final inspection of finished product production records performed by Quality? (Reference governing procedure(s))	Yes	SQF
3 *	Is there a defined process for the release of finished product from the production environment to the finished goods environment? (Reference governing procedure(s))	Yes	SQF
4 *	Is there a defined process in place for the safe storage and retain period of production-documentation? (Reference governing procedure(s))	Yes	SQF
5 *	Is there a defined process for ensuring nonconforming finished product is clearly identified and segregated from acceptable goods? (Reference governing procedure(s))	Yes	SQF
6 *	Are there controls in place to ensure nonconforming, rejected, or unapproved finished product cannot ship? (Reference governing procedure(s))	Yes	SQF

7 *	Do you have a retain-sample program for finished goods? (Reference governing procedure(s))	Yes	SQF
8 *	Is there controlled access to final-product stockrooms and material-storage areas? (Reference governing procedure(s))	Yes	SQF
9 *	Do you have a process for stability testing of product to ensure it meets specification during its useful life? (Reference governing procedure(s))	Yes	SQF
10 *	Do you warehouse control/ship finished goods inventory using a FIFO based system? (Reference governing procedure(s))	Yes	SQF
11 *	Do you have a process to ensure product is protected from contamination or damage during shipping and handling (sanitary transport conditions as required)? (Reference governing procedure(s))	Yes	SQF

2.6: General Controls - Manufacturing Facilities, Safety, and Environment

Subject:		Response:	Governing Procedure Reference / Comments:
1 *	Do procedures in place governing facilities maintenance? (Reference governing procedure(s))	Yes	SQF
2 *	Is there a system in place to ensure compliance to all applicable fire, building, safety, and environmental codes? (Reference governing procedure(s))	Yes	SQF
3 *	Is there a documented pest control program in place with compliance monitoring? (Reference governing procedure(s))	Yes	SQF
4 *	Are there labeled general waste containers provided throughout the facility? (Reference governing procedure(s))	Yes	SQF
5 *	Do you have a facility security program? (Reference governing procedure(s))	Yes	SQF
6 *	Are dress code and PPE requirements in place and monitored for compliance? (Reference governing procedure(s))	Yes	SQF
7 *	Is all air used in processing filtered to the customer's required specifications? (Reference governing procedure(s))	Yes	SQF
8 *	Is water that is used as an ingredient treated or processed to the customer's required specifications? (Reference governing procedure(s))	Yes	SQF
9 *	Are heating and cooling processes monitored as required to ensure customer requirements are met? (Reference governing procedure(s))	Yes	SQF
10 *	Are all storage tanks, portals, and piping secure and monitored for tampering to ensure customer requirements are met? (Reference governing procedure(s))	Yes	SQF
11 *	Are there documented procedures addressing the cleanliness and/or contamination control of product and/or manufacturing tools? (Reference governing procedure(s))	Yes	SQF
12 *	Are there controls in place to verify that a production process is acceptable after repair/maintenance on a component of that production process? (Reference governing procedure(s))	Yes	SQF

13 *	Are controls in place to prevent nonconforming equipment from being used and to segregate and/or notify the customer if nonconforming equipment was used? (Reference governing procedure(s))	Yes	SQF
14 *	Are raw materials/ingredients, packaging materials, and finished products protected from damage and properly stored? (Reference governing procedure(s))	Yes	SQF
15 *	Are procedures in place for cleaning all equipment/areas/structures? (Reference governing procedure(s))	Yes	SQF
16 *	Is there a procedure in place governing production area cleanliness/sanitation/sterilization? (Reference governing procedure(s))	Yes	SQF
17 *	Is there individual accountability and sign-off for each cleaning task completed? (Reference governing procedure(s))	Yes	SQF
18 *	Is there continuous training for cleaning/sanitation job skills and documented per employee? (Reference governing procedure(s))	Yes	SQF
19 *	Is there a program in place to ensure all sanitation chemicals are properly labeled and stored? (Reference governing procedure(s))	Yes	SQF
20 *	Are controls in place to ensure sanitation chemicals are secured in a separate area away from processing/production? (Reference governing procedure(s))	Yes	SQF
21 *	Are chemical concentration levels prepared in accordance with the Sanitation Program or Manufacturer's recommendation? (Reference governing procedure(s))	Yes	SQF
22 *	Are there procedures in place to prevent liquid contamination on the floor? (Reference governing procedure(s))	Yes	SQF
23 *	Is Trash storage area appropriately isolated and monitored to prevent contamination risk to the product or facility? (Reference governing procedure(s))	Yes	SQF
24 *	Are screens placed on windows that can be opened as well as fans/vents which pull/exhaust air outside to prevent against pest entry? (Reference governing procedure(s))	Yes	SQF
25 *	Are all receiving and shipping doors protected by pest exclusion devices (dock pads, rodent flashing, etc.)? (Reference governing procedure(s))	Yes	SQF

2.7: General Controls - Calibration and Laboratories

Subject:		Response:	Governing Procedure Reference / Comments:
1 *	Do you have a calibration system in place covering all applicable test/manufacturing equipment throughout the organization? (Reference governing procedure(s))	Yes	SQF
2 *	Do you have a defined process in place to prevent the use of non-calibrated and/or nonconforming equipment? (Reference governing procedure(s))	Yes	SQF
3 *	Is there a defined process in place to ensure the customer is immediately alerted in the event a test device is found to be nonconforming after product has shipped? (Reference governing procedure(s))	Yes	SQF
4 *	Is the calibration system monitored on a set schedule to ensure compliance? (Reference governing procedure(s))	Yes	SQF

5 *	Do you use only certified/approved outside calibration services (certification to ISO-17025)? (Reference governing procedure(s))	Yes	SQF
6 *	Is there a defined process in place to ensure test equipment is properly stored and protected? (Reference governing procedure(s))	Yes	SQF
7 *	Are all calibration activities documented and retained? (Reference governing procedure(s))	Yes	SQF
8 *	Do you follow <i>Good Laboratory Practice</i> (GLP) guidelines? (Reference governing procedure(s))	Yes	SQF
9 *	Do you have a process in place for the evaluation of Measurement System Analysis (MSA) with critical lab measurement activity? (Reference governing procedure(s))	Yes	SQF
10 *	Is testing performed with laboratory controls in place to limit or eliminate adverse environmental factors that will impact test results (ex. Lighting, temperature, humidity, sound, vibration, EMI or microbiology)? (Reference governing procedure(s))	Yes	SQF
11 *	Are Reagents checked to confirm they are not expired (if applicable)? (Reference governing procedure(s))	Yes	SQF
12 *	Are test results properly recorded at the time each test is completed? (Reference governing procedure(s))	Yes	SQF
13 *	Are test methods validated prior to use? (Reference governing procedure(s))	Yes	SQF
14 *	Do you have a documented process to manage outsourced test or 3rd Party laboratories? (Reference governing procedure(s))	Yes	SQF

2.8: Document Control / Change Control Communication

Subject:		Response:	Governing Procedure Reference / Comments:
1 *	Is there a defined document control program in place? (Reference governing procedure(s))	Yes	SQF
2 *	Does the document control system utilize hard copy or electronic files and if electronic, was the system validated? (Reference governing procedure(s))	Yes	SQF
3 *	Are documents controlled for distribution and readily accessible at their intended point of use? (Reference governing procedure(s))	Yes	SQF
4 *	Does your controlled documents process use an ID and revision level system and prevent use of obsolete documents? (Reference governing procedure(s))	Yes	SQF
5 *	Is there a system in place for control of lab notebooks? (Reference governing procedure(s))	Yes	SQF
6 *	Is there a document retention program? (Reference governing procedure(s)) If "Yes", please indicate the retention period in the "Comments" column.	Yes	SQF
7 *	Is there a process in place to ensure customers are notified well in advance of significant changes to the manufacturing process? (Reference governing procedure(s))	Yes	SQF

8 *	Do you have a documented records control process and are employees trained on the process? (Reference governing procedure(s))	Yes	SQF
9 *	Are records completed documenting the processes performed with appropriate approvals, stored for retrieval, and to prevent deterioration? (Reference governing procedure(s))	Yes	SQF

Please indicate which process change areas are covered in the Customer Change Control communication process:

Area of Change	Response	Comments
* New manufacturing location:	Yes	
* New production line:	Yes	
* Major equipment processing parameters:	Yes	
* Major Quality Plan modifications:	Yes	
* Raw materials:	Yes	
* Product design:	Yes	
* Test methods:	Yes	
* New or major tooling repairs/modifications:	Yes	
Other:		
Other:		

2.9: General Employee Training

Subject:	Response:	Governing Procedure Reference / Comments:
1 * Do you have an established and documented training program for all employees in appropriate areas and GMP? (Reference governing procedure(s))	Yes	SQF
2 * Are written job work instructions, or similar, in place for all major manufacturing processes? (Reference governing procedure(s))	Yes	SQF
3 * Does the training program categorize or scale the competency levels as appropriate for the task being performed (i.e.: in-training, qualified, certified, etc.)? (Reference governing procedure(s))	Yes	SQF
4 * Does your operator training program specifically cover the importance of their activities and how their performance affects quality? (Reference governing procedure(s))	Yes	SQF
5 * Is performance as it relates to meeting quality requirements part of the operator appraisal process? (Reference governing procedure(s))	Yes	SQF
6 * Are controls in place to ensure operators can only perform specific job functions to which they are trained/certified? (Reference governing procedure(s))	Yes	SQF
7 * Does the system ensure all designated operators receive updated training as a result of procedural revisions or post manufacturing process improvements? (Reference governing procedure(s))	Yes	SQF
8 * Does the overall training program apply to temporary labor, especially at the operator level? (Reference governing procedure(s))	Yes	SQF
9 * Do trained personnel receive periodic retraining and/or recertification? (i.e. annual retraining) (Reference governing procedure(s))	Yes	SQF
10 * Does the system utilize electronic files and if so, has the system been validated? (Reference governing procedure(s))	Yes	SQF

Please indicate which elements are covered in the training program using the table below:

Area	Response	Comments
------	----------	----------

* Quality:	Yes	
* Safety:	Yes	
* Environment:	Yes	
* GMP:	Yes	
* Technical:	Yes	
* Regulatory compliance:		
Other (provide detail):		
Other (provide detail):		
Other (provide detail):		

2.10: General Audits Systems

Subject:		Response:	Governing Procedure Reference / Comments:
1 *	Do you have documented internal audit program? (Reference governing procedure(s))	Yes	SQF
2 *	Is the internal audit program integrated with your CAPA program to address nonconformances? (Reference governing procedure(s))	Yes	SQF
3 *	What is the frequency of your internal audit program? (Reference governing procedure(s))	Yes	SQF
4 *	Do the results and CAPA activity related to auditing undergo routine management review and approval? (Reference governing procedure(s))	Yes	SQF
5 *	Do you have a Supplier Quality Management system? (Reference governing procedure(s))	Yes	SQF
6 *	Do you have a supplier auditing program? (Reference governing procedure(s))	Yes	SQF
7 *	Have you undergone any 2 nd party (customer) audits in the last two years? (Reference governing procedure(s))	No	

If **YES**, please identify the most recent audits and your present status as a supplier for that organization (i.e.: approved, certified, qualified, etc.).

Customer Name:	Audit Date:	Present Status/Ranking:

8 *	Would you be willing to share basic information on these audits? (Please note: this may exclude you from the need for a separate audit form C&D).	N/A	
9 *	Has the facility received any Quality Awards? (If YES, please detail)	No	

2.11: General Management Responsibility & Continuous Improvement

Subject:		Response:	Governing Procedure Reference / Comments:
1 *	Is there a defined corporate Quality Policy in place and supported by the management of the company? (Reference governing procedure(s))	Yes	SQF
2 *	Is there a program in place to ensure the quality policy is clearly understood and supported at all levels of the organization? (Reference governing procedure(s))	Yes	SQF

3 *	Is there a Quality Manual that outlines the overall Quality System and clearly identifies roles & responsibilities? (Reference governing procedure(s))	Yes	SQF
-----	---	-----	-----

Please indicate which elements are contained in your Quality Manual:

Area:	Response:	Comments:
* Quality Policy:	Yes	
* CAPA System:	Yes	
* Purchasing Controls:	Yes	
* Design Controls:	Yes	
* Complaint Handling:	Yes	
* ID & Traceability System:	Yes	
* Calibration System:	Yes	
* Preventive Maintenance:	Yes	
* Process Control / Validation:	Yes	
* Quality Plan:	Yes	
* Process Validation Program:	Yes	
* Specification Control Plan:	Yes	
* C of A Program:	Yes	
* Retain/Sample Program:	Yes	
* Change Control Program:	Yes	
* Document Control:	Yes	
* CPI (Continuous Process Improvement):	Yes	
* Quarantine Product System:	Yes	
* Recall Procedure:	Yes	
* HACCP (Hazard Analysis Critical Control):	Yes	
* FMEA (Failure Mode Effects Analysis):	Yes	
* Training:	Yes	

Subject:	Response:	Comments:
4 * Do you have a defined continuous improvement program? (Reference governing procedure(s))	Yes	SQF
5 * Do you utilize Quality KPIs or other metrics to measure and trend overall performance and improvement? (Reference governing procedure(s))	Yes	SQF
6 * Is cost reduction part of the continuous improvement program? (Reference governing procedure(s))	Yes	SQF
7 * Do you have a system in place to measure Cost of Quality? (Reference governing procedure(s))	Yes	SQF
8 * Does senior management perform an annual Management Review of the overall quality management system on a set schedule to ensure it remains effective? (Reference governing procedure(s))	Yes	SQF

If YES, Please indicate the scope of the management review in the table below:

Area:	Response:	Comments:
* Internal/external audit results:	Yes	
* Customer feedback/satisfaction:	Yes	
* Process & product performance/conformance:	Yes	
* Status of all CAPA activities:	Yes	
* Continuous improvement initiatives:	Yes	
* Previous management review follow-up activities:	Yes	
* Changes that impact the overall quality system:	Yes	
* Resource requirements:	Yes	

* Conformity to product requirements:	Yes	
* Overall process and product trending:	Yes	
* Training requirements :	Yes	
* Supplier Performance:	Yes	
Other (provide detail):		
Other (provide detail):		
Other (provide detail):		

2.12: Corrective Action & Preventive Action (CAPA)

	Subject:	Response:	Governing Procedure Reference / Comments:
1 *	Do you have a defined CAPA system in place? (Reference governing procedure(s))	Yes	SQF
2 *	Is your CAPA system standardized across all facilities (if applicable - more than one location)?	N/A	

Please indicate the scope of the CAPA system in the table below:

Area:	Response:	Comments:
* Internal/external audit nonconformance:	Yes	
* Customer complaints:	Yes	
* Supplier nonconformance:	Yes	
* Process and product nonconformance:	Yes	
* Status of all CAPA activities (open/closed):	Yes	
* CAPA follow-up and effectiveness review:	Yes	
Other:		
Other:		

3 *	Is the CAPA activity reported to your senior management team? (Reference governing procedure(s))	Yes	SQF
4 *	Are CAPA metrics regularly analyzed for trends? (Reference governing procedure(s))	Yes	SQF
5 *	Do you have a preventive maintenance program in place? (Reference governing procedure(s))	Yes	SQF

If **YES**, Please indicate the scope of the preventive maintenance program in the table below:

Area:	Response:	Comments:
* Direct manufacturing equipment:	Yes	
* Secondary supporting systems:	Yes	
* All major production tooling:	Yes	
* All major test equipment:	Yes	
Other:		
Other:		

6 *	Are periodic inspections made and documented to ensure the maintenance of manufacturing equipment is performed according to an establish schedule? (Reference governing procedure(s))	Yes	SQF
-----	--	------------	-----

2.13: Identification & Traceability System

Subject:	Response:	Governing Procedure Reference / Comments:
----------	-----------	---

1 *	Do you have a documented process defining the identification and traceability of raw materials, in-process, and finished goods? (Reference governing procedure(s))	Yes	SQF
2 *	Does your tracking system allow retrieval (recall or recovery) of product at any point in the manufacturing process, including transit? (Reference governing procedure(s))	Yes	SQF
3 *	Do you use a bar code system to track raw materials and finished product? (Reference governing procedure(s))	No	
4 *	Do you conduct mock recall/recovery exercises on a routine schedule? (Reference governing procedure(s))	Yes	SQF
5 *	Do you have a software-based warehouse management system? (Reference governing procedure(s))	Yes	SQF
6 *	Do you have a procedure to ensure customers are notified in the event that a post-shipment nonconformance is identified internally or externally? (Reference governing procedure(s))	Yes	SQF
7 *	Do you have a process in place that clearly defines a Work Order / Shop Order / Lot Code identification for a full production run? (Reference governing procedure(s))	Yes	SQF

2.14: Regulatory Overview

Subject:		Response:	Governing Procedure Reference / Comments:
1 *	Is <u>this</u> facility registered with the FDA?	Yes	
2	If YES, enter registration number:		16038143196
3 *	Has <u>this</u> facility undergone an FDA inspection within the last three years?	Yes	
4	If YES, enter date of inspection:		7/10/2023

Please indicate any 483 findings and present status:

	Area of Nonconformance:	Status:	Comments:
1	N/A		
2			
3			
4			
5			

Please indicate any Warning Letter findings and present status:

	Area of Nonconformance:	Status:	Comments:
1	N/A		
2			
3			

Please indicate if this specific location is actively compliant with or certified to:

IMPORTANT: With the return of this assessment, please provide copies of your certificates.

2.15: Process Control & Validation

Subject:	Response:	Governing Procedure Reference / Comments:
1 * Do you have a defined validation program? (Reference governing procedure(s))	Yes	SQF

If YES, Please indicate the scope of the validation system in the table below:

Area:	Response:	Comments:
* Process/production changes:	Yes	
* Tooling:	Yes	
* Cleaning:	Yes	
* Test equipment:	Yes	
* Analytical Methodologies:	Yes	
* Computer systems:	Yes	
Other:		
Other:		

2 * Do you have a documented validation/qualification protocol? (Reference governing procedure(s))	Yes	
3 * Do you use any statistical process control (SPC) programs? (Reference governing procedure(s))	N/A	

If YES, please indicate the scope of the SPC system in the table below:

Area:	Response:	Comments:
* Incoming-raw materials:		
* In process production:		
* Finished goods:		
* Validation programs:		
* Machine parameters/Outputs:		
Other:		
Other:		

4 *	Do you have a master validation plan? (Reference governing procedure(s))	N/A	
5 *	Are there pre-determined SPC output parameters or trigger points identified (i.e.: special causes)? (Reference governing procedure(s))	N/A	
6 *	Do you have a procedure that ensures there is immediate "reaction" to identified process control nonconformance events? (Reference governing procedure(s))	N/A	
7 *	Are you capable of performing equipment IQ/OQ/PQ and is it performed? (Reference governing procedure(s))	N/A	

2.16: Hazard Analysis Critical Control Point (HACCP)

Subject:		Response:	Governing Procedure Reference / Comments:
1 *	Do you have a defined Hazard Analysis Critical Point (HACCP) program in place? (Reference governing procedure(s))	Yes	SQF
2 *	Has the company been free of any material safety issues with same or similar materials (e.g. carcinogen, toxicity, irritation complaints, etc.)? (Reference governing procedure(s))	Yes	SQF
3 *	Does the facility track safety statistics (recordable and lost workday rates, i.e.: DART)? (Reference governing procedure(s))	Yes	OSHA
4 *	Does the facility handle any highly hazardous materials? (Reference governing procedure(s))	Yes	SQF
5 *	Is the site free of any materials which require industrial hygiene programs (i.e.: lead, enzymes, etc.)? (Reference governing procedure(s))	Yes	SQF
6 *	Has the site conducted an industrial hygiene exposure hazard assessment? (Reference governing procedure(s))	Yes	SQF
7 *	Do you have a procedure in place for the isolation and inspection prior to restart of all production areas where repairs/maintenance has taken place? (Reference governing procedure(s))	Yes	SQF
8 *	Does this site follow cGMP guidelines in the manufacturing areas? (Reference governing procedure(s))	Yes	SQF
9 *	Do you have a defined contaminate prevention system in place (i.e.: metal detection, vision systems, magnets, sieves, screening, filters, etc.)? (Reference governing procedure(s))	Yes	SQF
10 *	Do you have an Allergen Program in place at this facility? (Reference governing procedure(s))	Yes	SQF

If YES, please indicate the scope of the Allergen Program in the table below:

Area:	Response:	Comments:
* Identifies and specifies restricted materials from your raw material suppliers:	Yes	
* Identifies and specifies restricted materials within your own facility:	Yes	
* Controlled list of all restricted allergen materials:	Yes	

2.17: Design and Development Controls

	Subject:	Response:	Governing Procedure Reference / Comments:
1 *	Do you have a process for design and development controls? (Reference governing procedure(s))	Yes	SQF
2 *	Do the controls include Design Input, Design Output, Design Review, Design Verification, and Design Validation? (Reference governing procedure(s))	Yes	SQF
3 *	Do you have a process for design change control? (Reference governing procedure(s))	Yes	SQF
4 *	Do you have the ability to develop FMEA/PFMEA's? (Reference governing procedure(s))	Yes	SQF

2.18: Sustainability Program

	Subject:	Response:	Governing Procedure Reference / Comments:
1 *	Do you have a sustainability program in place? (Reference governing procedure(s))	N/A	

If YES, please indicate the major metrics being captured in the table below:

Detail - Sustainability Metric	Comments

2	Would you be willing to share these metrics with C&D? (If yes, please attach these metrics with the return of this assessment)		
---	---	--	--

2.19: Technical Assessments

	Subject:	Response:	Governing Procedure Reference / Comments:
1 *	Do you have a 6 sigma program? (Reference governing procedure(s))	No	
2 *	Does the organization have subject matter experts (SME's) to perform root cause investigation?	Yes	
3 *	Does the organization have the capability to diagnose technical issues and resolve them?	Yes	
4 *	Does the organization have an R&D department?	Yes	
5 *	Does the organization have technical support personnel?	Yes	
6 *	Does the organization have Quality Engineers?	Yes	
7 *	Do you have personnel with skill to develop technical transfer protocols?	Yes	
8 *	Do you have personnel with skill to develop Gage Repeatability and Reproducibility (R&R) protocols?	Yes	

9 *	Do you have personnel with skill to develop Design of Experiments (DOE) protocols?	N/A	
-----	--	-----	--

If **YES**, Please indicate belt certifications at [this site](#) based on departmental areas:

	Green	Black	Master	Comments:

Operations:				
Customer Service:				
Other:				
Other:				
Total:	0	0	0	

Are the above personnel available as a resource to support C&D as it applies to the following areas:

Area:	Response:	Comments:
* CAPA Activity:	Yes	
* Process Improvement Projects:	Yes	
* Research & Development Projects:	Yes	
* Cost Savings Projects:	Yes

SIGNATURE

Section 3

Prepared by: Ryan Wixted

Title: QC/QA Manager

Signature of Approval: This document shall be reviewed and approved by a senior management representative. Signature below certifies that the information provided in this questionnaire is complete and accurate.

Approver Name:	Dan Wixted
Approver Title:	President
Signature:	
Date:	9/18/2025

IMPORTANT

Please return:

1) Two versions of this survey:

- > The completed excel file
- > The signed copy (electronic or wet signature) as a PDF

2) Copies of any certificates indicated in section 2.14 : Regulatory Overview

CONTACT INFORMATION

Section 4

Please provide site specific contacts for the following areas:
