

Triangle Test

Sensory Evaluation · Mouthrinse Panel

You will receive three coded samples (A, B, C).
Two samples are identical. One is different.
Taste each sample. Identify the ODD one.
Rinse with water between samples.

01 PARTICIPANT INFORMATION

Date

Panel ID

Location

Age

Gender

Major / Occupation

How often do you use mouthwash?

☐ Daily

☐ 3–5×/wk

☐ 1–2×/wk

☐ Rarely

☐ Never

Brand(s) you currently use (or "none"):

02 SAMPLE IDENTIFICATION

Taste samples left to right. Circle the sample that is DIFFERENT from the other two.

Which sample is ODD?

☐ Sample A

☐ Sample B

☐ Sample C

Confidence in selection:

☐ Not at all confident

☐ Somewhat confident

☐ Confident

☐ Very confident

03 SENSORY PROFILE — CIRCLE ONE NUMBER PER CELL (1 = LOW · 5 = HIGH)

	Sample A					Sample B					Sample C				
Mint Intensity How strong is the mint?	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Freshness How fresh does it feel?	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Sweetness How sweet is the taste?	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Mouthfeel How smooth / pleasant?	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Aftertaste Duration How long does it linger?	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5

04 PREFERENCE & PURCHASE INTENT

Which sample did you prefer overall?

☐ Sample A

☐ Sample B

☐ Sample C

☐ No preference

If your preferred sample were available at retail, how likely would you be to purchase it?

Definitely not

Probably not

Might / might not

Probably yes

Definitely yes

05 COMMENTS (OPTIONAL)

Describe any notable differences you detected — flavor, texture, finish, or overall impression:

compensation is provided as a courtesy and does not obligate any specific response.
By completing this form I confirm I am 18 or older, have no known allergies to mint-flavored products, and consent to my anonymous responses being used solely for product development research. Gift card
